

# Job announcement

At the Walther-Meißner-Institut (WMI, <https://www.wmi.badw.de/>) of the Bavarian Academy of Sciences and Humanities (BAdW) located at the Campus Garching near Munich in Germany, we offer a

## PhD position on the experimental realization of quantum radar

**The position** is offered in a multidisciplinary collaboration with partners from science and industry. You will experimentally investigate novel radar paradigms in illumination-type sensing based on propagating quantum microwaves. Your work is embedded into the quantum technology network formed by the WMI, the Excellence Cluster MCQST (<https://www.mcqst.de/>), the TU München (<https://www.tum.de/>), the EU Quantum Flagship project QMiCS ([https://qmics.wmi.badw.de](https://qmics.wmi.badw.de/)), and several companies working on quantum technology in the Munich area. The intended contract duration is 3 years.

**You** embrace a PhD project on the design, fabrication, and characterization of innovative superconducting circuits for microwave photon counting in the context of a quantum illumination experiment. You hold a Master's degree in physics or a similar field of study with a solid background in Josephson physics, quantum information, quantum communication, or quantum sensing.

**Application documents** should include your CV, relevant transcripts and grade reports, and a brief cover letter explaining your motivation. Please send them as a single PDF file to Martina Meven ([sekretariat@wmi.badw.de](mailto:sekretariat@wmi.badw.de), please mention the code "2020-FD-02") . The closing date for applications is Oct. 31, 2020.

We are determined to build an inclusive culture that encourages and values the diverse voices of all members of the research team embracing the full diversity of gender identities and cultures. Disabled candidates with equal qualification and aptitude will be given preferential consideration according to the SGB IX. Upon application, you are submitting personal information. We collect and process personal data from your application in accordance with Art. 13 of the General Data Protection Regulation (GDPR). By submitting your application, you confirm that you have acknowledged the above data protection information of the BAdW. (see <http://badw.de/die-akademie/service-und-jobs.html#c3843>).
